

7 STEPS TO A SUCCESSFUL AND HAPPY 2019

95% of the people who set New Year's resolutions never follow through. Most people don't understand the process of how to produce lasting results and they never take the first small steps. This process will help you to get started and create the momentum that will drive you to follow through. You will gain clarity about where you've been, where you are now, and where you want to go. It will guide you to create a simple plan to set up 2019 so that it makes you even more successful and happy.

1. Get Clear
2. Get Certain
3. Get Excited
4. Get Focused
5. Get Committed

STEP 1: GET CLEAR

To start with, you must gain clarity about where you are now.

What did you love in the last 12 months?

What were some of your Magic Moments?

What was extraordinary?

What did you accomplish in the last 12 months?

What are some things from the last 12 months that you want to duplicate in the next year?

What did you hate in the last 12 months?

What was challenging this past year?

What do you not want to have happen again?

What did you learn by going through these experiences? Why were they valuable?

What decisions did you make in the last 12 months that were empowering for you?

What were some of the most important decisions of this year for you?

What decisions might you make next year as a result?

STEP 2: GET CERTAIN

After knowing where you are, you need to create certainty about your capacity to take anything you can dream about and make it real.

Write down anything in your life that was once just a goal dream or desire. What are some of the big and little things that seemed extremely difficult or impossible to achieve or acquire?

Underline the 2 - 3 items on your list that seemed the most difficult or impossible to achieve.

For the items you underlined, write down the steps you went through to turn each into reality.

Then, did you focus on it continuously?

Put a lot of emotional charge into it? Then what?

Did you actually create a plan?

What were the steps you went through?

STEP 3: GET EXCITED

Now that you are clear about where you've been, and you have certainty about your ability to make your goals and dreams real, it's time to decide where you want to go.

In a peak state (when you really feel good) write down every goal you think you'd like to accomplish in your lifetime.

Include ANYTHING you want to do, be, share, create, have, give. Include financial goals, personal development goals, physical goals, relationship goals, contribution goals - anything you'd like to learn, enjoy, or do. No matter how silly or outrageous it may seem, this is your chance to dream without limits. Be sure to keep your pen moving as fast as possible.

When you are finished, go through your list and next to each item, write down the number of years you want it to take (or believe it will take) to achieve your goal (write 1 year, 3 years, over 3 years)

STEP 4: GET FOCUSED

Out of your list of goals (from step 3), circle your one-year goals. Out of your entire list, what do you want most?

What are the goals that if you could achieve them this year that would get you up early and keep you up late with excitement?

STEP 5: GET COMMITTED

For each of your one-year goals, write a paragraph about why they are 'musts' for you to achieve them. What are the reasons you absolutely will achieve this no matter what? Remember, reasons come first, answers come second! Why do you want to do this?

What are some of the things that you may need to do that you don't want to do in order to achieve these goals? If you have enough passion, you can get yourself to do anything, but first you must be certain about what "anything" might entail.

STEP 6: GET MOMENTUM

Never leave the site of setting a goal without taking some action toward its attainment. You must take immediate action.

Decide now: What is one small thing that you will do immediately toward achieving one of your goals e.g., making a phone call, booking a meeting, getting on the internet to research, signing up for a seminar, getting a coach, etc.)?

What is one big thing that you resolve to do *immediately* to achieve this goal (e.g., making a decision, throwing out all the unhealthy food in your house right now, giving something away, etc.)?

STEP 7: GET SMART

To make sure you follow through, you have to get smart and measure yourself consistently. Remember, most people set some New Year's goals, have no plan or direction, take no action, and then measure again next New Year's! The more you measure something the better it gets. You must resolve now to measure our specific progress daily, or at least weekly.
